

Morphed Alien Earth Club Whitepaper

Morphed Alien Earth Club Whitepaper

Morphed Alien Earth Club

Morphed Alien Earthling's are a collection of 10,000 Unique Alien PFP generated from 6 characters with over 150 traits living on the Ethereum Blockchain. Each Morphed Alien Earthling provides it's owner a unique PFP, awesome community to join, tokens with each NFT(with the option to stake, farm, hodl or cash out tokens), private access to IRL events, exclusive merch and more.

Morphed Alien Earth Club Whitepaper

Impressed by many successful sold out Blue Chip NFT projects, Morphed Alien Earth Club's aim is to become one of the biggest NFT projects in the NFT space. The earth is a big place, so a global team with members from around the world, including Pakistan, Australia, USA and many other countries came together to create a project with safe code, great art and good intentions. We also wanted to keep it simple with a lot to offer.

It's your 2nd bear cycle since minting your Morphed Alien Earth Club NFT. Your Earthling is now worth 64 ETH. ETH is trading somewhere around \$30,000 each. The token you claimed with your Morphed Alien Earth Club NFT are trading at \$12.56 each. You're glad you HODL. You pick up your phone and go to the Morphed Alien Earth Club app, you push a few buttons and earn yourself several dollars worth of tokens that day. You check the staking and farming platform and think to yourself " Life is GREAT!"

How to mint a Morphed Alien Earth Club NFT:

Morphed Alien Earth Club are on the Ethereum Blockchain. We recommend using a MetaMask wallet. You must have enough ETH to cover mint and gas fees.

Step 1 Go to >>> [***https://maec.netlify.app/mint.html***](https://maec.netlify.app/mint.html)

Step 2 Connect MetaMask wallet, make sure you are on the Ethereum Blockchain, make sure you have enough ETH in your MetaMask wallet to cover minting and gas fees, decide how many Morphed Alien Earth Club NFT's you want to mint (1-25), push mint button, approve MetaMask and wait for confirmations.

Step 3 Once your mint has been confirmed on the Ethereum Blockchain you can visit:

<https://opensea.io/>

Connect your MetaMask wallet to OpenSea and view your Morphed Alien Earth Club NFT.

Morphed Alien Earth Club's Road Map

Morphed Alien Earth Club has a simple map to follow and read.

Phase 1: Build the Utilities

- Build smart contract for Morphed Alien Earth Club's BCLUS token. Completed 

Proof of Work

<https://bscscan.com/>

0x6a7289def9aa97864dd72f595cfc310f9764931d

- Build swap for swapping claimed BCLUS tokens. Completed 

Proof of Work

<https://bscscan.com/>

0xDAeFA7622b27698051D0c8e97A23D989c7387A3e

- Build staking platform for staking claimed BCLUS tokens. Completed 

Proof of Work

<https://staking.thebuckleupswap.com/pools>

Morphed Alien Earth Club's Road Map

Phase 1: Build the Utilities

- Build Landing page for Morphed Alien Earth Club. Completed 

Proof of Work

<https://maec.netlify.app/>

- Build minting page for minting Morphed Alien Earthling NFT's. Completed 

Proof of Work

<https://maec.netlify.app/mint.html>

- Build traits, generate artwork including rarities. Completed 

Proof of Work

<https://etherscan.io/>

[0x241Aa993CaAfA49960d234f307E60d2bc7dc2E92](https://etherscan.io/address/0x241Aa993CaAfA49960d234f307E60d2bc7dc2E92)

- Build yield farming platform for yield farming claimed BCLUS tokens. Completed 

Proof of Work

<https://staking.thebuckleupswap.com/farms>

Morphed Alien Earth Club's Road Map

Phase 2: Build the Community

- Establish social media presence.
- Recruit Moderators
- Recruit Influencers
- Public-Mint
- List on Opensea

We know most NFTs meet the three necessary criteria for an asset Store-of-Value, (limited supply, durability, and social agreement) We also believe NFT's are positioned to perform SoV functions across Blockchains in the future.

Phase 3: Economics/Where your money is going.

- 56% will be used for Token Liquidity;
- 35% Remains in MAEC smart contract;
- 5% for P2E Development & Project Expansion;
- 4% Founder Reimbursement Fee.

We decided to keep the BEST phase SIMPLE!

Morphed Alien Earth Club's Road Map

Token Liquidity

Adding liquidity to a token is important. In order to protect holders of the token it must be done by following certain criteria.

- We **MUST** pair at least 85% of the tokens total supply with a already existing preferably healthy token. In this case we will use BNB. We will be pairing 350,000,000 (91% TS) of the BCLUS with BNB. BCLUS is the token available for holders to claim.
- We will convert 56% of the ETH from the NFT smart contract into BNB to be paired with BCLUS. This **SHOULD** total no less than \$1 million.
- We will then pair BNB/BCLUS tokens adding them to the swap creating a first initial price of roughly around \$0.005. A very GOOD starting price.

Morphed Alien Earth Club's Road Map

Token Liquidity

- We will be Yield Farming the BNB/BCLUS LP Tokens on the platform and distributing their rewards as follows:

50% Monthly rewards will be distributed to all holders as reimbursement towards the minting fee.

25% Monthly into Treasury.

25% Monthly to The American Red Cross & Doctors Without Borders charities.

After reimbursement to holders is complete 75% of the rewards will go into the treasury.

- Allow holders to then claim their BCLUS from token claim page.
- Continue application process for BCLUS to be listed on several exchanges both large and small.
- We then will proceed to begin trading BCLUS 24/7 to increase trading volume and the price of BCLUS.

Morphed Alien Earth Club's Road Map

Morphed Alien Earth Club Smart Contract

- 35% of the ETH will remain in the smart contract for NFT trading volume and price.

P2E Development & Project Expansion

- 5% will go towards P2E Development & Project Expansion.
- We love playing games. We also really love the idea of earning tokens while playing games. We are working on a Multi-level P2E Game with **DAILY** payouts. The Morphed Alien Earth Club P2E game will make it easy to learn and easy to earn. The tokens earned as rewards will be swapped for BCLUS increasing BCLUS trading volume and price.
- We will also be building a platform for voting on treasury fund distribution, IRL events etc, etc.

Morphed Alien Earth Club's Road Map

Founder Reimbursement Fee.

- 4% of the ETH from the NFT smart contract will be used as Founder Reimbursement Fee.
Compensation for time and money spent.
